

# SUSTAINABLE WASTE SOLUTIONS

## ADVANCING WASTE DIVERSION & SUSTAINABLE OUTCOMES

As regulations evolve and sustainability expectations grow, waste management has become increasingly complex. APTIM has experience across thousands of waste assessments and employs subject matter experts who deliver waste management solutions tailored to your specific compliance, environmental, and organizational needs.

### WASTE MANAGEMENT CHALLENGES

- Meeting waste diversion and reduction targets
- Navigating current and emerging waste regulations
- Managing complex and inconsistent billing
- Responding to increasing customer and stakeholder expectations

### VALUES DELIVERED

- **LOWER COSTS:** Identify billing errors, right-size services, and capture cost savings.
- **REGULATORY CONFIDENCE:** Stay compliant with evolving recycling and composting requirements.
- **IMPROVED DIVERSION:** Implement targeted, data-driven strategies to meet and exceed goals.
- **STRONGER REPUTATION:** Demonstrate environmental leadership and compliance to customers and stakeholders.

### OUR SUSTAINABLE WASTE SOLUTIONS

- Regulatory and compliance reviews
- Waste reduction and prevention strategies
- On-site and virtual assessments
- Waste diversion roadmapping
- Project development, implementation, and ongoing management
